

Pallets & Packing Cases

What materials are used to make the pallets?

All standard pallets are manufactured using Radiata Pine. Some applications also include the use of plywood or a combination of both.

Can pallets be exported?

Yes. We are fully accredited by relevant authorities to export all of our timber products.

What size pallets are available?

We cater for all requirements offering both a design and manufacturing service to provide you with the correct size and custom pallet to meet your needs.

What do the pallets cost?

We are committed to providing high quality products at competitive prices. Costing is based on the quantity of order and is determined by individual client requirements are known.

We offer a standard size pallet in continual production but can also cater for custom orders.

Contact us to discuss how we can provide effective solutions for your organisation and work together for our community.
