

## Screen Printing

### What type of things can be screen printed?

Almost anything can be screen printed and is usually only limited by your imagination. Some of the most common materials to screen print on are:

- Satin and felt sashes and ribbons
- T-shirts
- Windcheaters
- Caps
- Flags
- Stickers

### Is screen printing expensive?

Screen printing is a cost effective way to print. We are committed to providing high quality products at competitive prices. Costing is based on the quantity of order and is determined by individual client requirements are known

As an indication, the screens are produced at a cost of AU\$55 each and the print cost is approximately AU\$0.80 per print depending on colour, size of artwork and quantity of prints required.

### Can you provide the product required as well as the screen printing?

Yes! We are well renowned for our primary strength of designing and manufacturing a diverse range of quality timber products for clients around Australia and the world.

We can offer an extensive range of services where the focus is on providing flexible solutions. Products can be manufactured and printed all in the one place.

### How do I arrange the artwork?
