

# Bedford Outdoor Projects

**Learning and Experiences**

Explore. Learn. Create.

## What is Bedford Outdoor Projects?

Bedford Outdoor Projects connects NDIS participants with meaningful conservation projects in South Australia's national parks and conservation areas. This program provides real-world experiences that are accessible and adaptable to individual needs

Participants engage in activities such as:

- Habitat Restoration in national parks
- Weed control initiatives at SA Water's Happy Valley Reservoir
- Construction and monitoring of wildlife habitats
- Native plant propagation

## Benefits for participants

- **Practical work skills:** Participants develop conservation, construction, and teamwork capabilities that enhance employability
- **Personal growth:** Activities foster independence, confidence, and self-reliance
- **Social connection:** Connecting with others who have the same goals
- **Sense of achievement:** Visible project outcomes create pride and satisfaction
- **Community integration:** Making positive contributions to local conservation efforts with other like-minded community members
